

In your group come up with a thesis statement about one of your themes (Write it down)

Remember

- Does the thesis sound like an argument?
- Does it include a word like "because", "since", "however", "despite" "in order to", etc.
- Can it be proved with evidence from the text?
- Does it tell you why the reader should care?

Example: **Despite** the fact that *Frankenstein* is about bringing the dead back to life, **through the ways the author uses death imagery**, the book shows that **death is the end of all things**.
